VIOLETA SERRANO GIMENO
Mathematics with Management and Finance Student — King's College London
London, UK / Spain | +34 611 470 847 | violeta.serrano.gimeno@gmail.com | LinkedIn: www.linkedin.com/in/violeta-serrano-gimeno-99b03a38a

PROFILE
Mathematics with Management and Finance student at King's College London with a strong quantitative foundation and a genuine interest in asset management and investment analysis. Combines rigorous analytical thinking with technical fluency across data, AI, and financial markets, underpinned by a consistent track record of initiative and leadership — from STEM advocacy to entrepreneurship and hackathon organizing. Motivated to bring this blend of quantitative rigor and entrepreneurial drive to real-world investment challenges.

EDUCATION
King's College London | BSc Mathematics with Management and Finance | Sept 2025 – Present
IES Andalán High School | Secondary Education & Spanish Baccalaureate with Honors | Sept 2019 – Jun 2025
- Elected Class President — Re-elected for 2 consecutive years during the Baccalaureate, representing classmates' interests and liaising with faculty on student affairs.

HONORS & AWARDS
- Extraordinary Secondary Education Award — national honor awarded only to the top-performing students in Spain, June 2024
- Finalist, Ayn Rand Institute's *Atlas Shrugged* International Essay Contest, Summer 2025
- King's Enterprise Award — King's College London's flagship entrepreneurship program supporting student-led ventures and innovation initiatives, June 2026

EXPERIENCE
Large Language Model (LLM) Trainer & Evaluator | Leading Conversational AI Platform | May 2026 – Aug 2026
- Applied structured evaluation frameworks to benchmark AI-generated outputs for accuracy, coherence, and factual reliability, contributing to a Reinforcement Learning from Human Feedback (RLHF) pipeline.
- Exercised rigorous analytical judgment and close attention to detail assessing model outputs against quality and alignment guidelines.
- Collaborated within a distributed, cross-functional team to support the continuous improvement of a state-of-the-art, high-visibility AI system.

Sponsorship Officer | King's College London Women in STEM Society | 2026 – Present
- Secure corporate sponsorships and partnerships to fund society events and initiatives supporting women in STEM.
- Build and maintain relationships with sponsor companies, managing outreach, proposals, and ongoing communication.
- Work with the wider committee to align sponsorship strategy with event and outreach goals.

Organizer | First Women's Hackathon, London | Oct. 2026
- Organized London's first hackathon dedicated to women in STEM, bringing together participants from King's College London, UCL, and Imperial College London
- Coordinated logistics, resources, mentors, and sponsors to deliver a full-scale hackathon experience.
- Created a platform for women to build technical skills and collaborate on real-world tech projects in a supportive environment.

PROJECTS
- Market Analysis Algorithm: Developed a quantitative financial analysis algorithm to detect volume anomalies and asymmetric information flows, initially applied to Polymarket prediction markets and later adapted for equity analysis of blue-chip stocks.
- Blockchain-Based Freelancer Protection Demo: Built at a hackathon — a smart contract-based escrow system that secured freelancer-client agreements by locking funds via collateral and releasing them only once both parties confirmed agreement, protecting against scams and non-payment.
- AI-Powered Skincare Web App: Built and marketed a web application that uses a proprietary algorithm to analyze skin conditions across multiple parameters and generate a personalized skincare score with tailored product recommendations.
