PROFILE

Mathematics with Management and Finance student at King's College London with a strong quantitative foundation and hands-on experience across equity research, machine learning and software engineering. Consistent track record of initiative and leadership, from organising London's first women's hackathon to securing corporate sponsorship for women in STEM. Eager to keep learning in fast-paced, analytical environments.

EDUCATION

BSc Mathematics with Management and Finance | *King's College London, London* **Sept 2025 – Present**

- **First Class expected.** Relevant focus: Financial Mathematics, Quantitative Methods, Management Science, Corporate Finance.

Secondary Education & Spanish Baccalaureate with Honours | *IES Andalán, Spain* **Sept 2019 – Jun 2025**

- **Extraordinary Secondary Education Award:** national honour awarded only to the top-performing students in Spain (2024).
- Elected Class President for 2 consecutive years, representing students and liaising with the school administration.

EXPERIENCE

Junior Equity Analyst | *KCL Capital Markets, London* **Oct 2026 – Present**

- Conduct equity research, financial analysis and valuation on companies across sectors to evaluate investment opportunities.
- Prepare and present stock pitches, investment theses and valuation frameworks.

Software Engineer | *King's Labs, King's Business Club, London* **Oct 2026 – Present**

- Partner directly with real companies and startups within King's Business Club's pro-bono software engineering team to design, build and deploy software tailored to their operational and technical needs.
- Engage in real client work and hands-on coding, collaborating closely with client founders and a structured team of student engineers; also help at some KBC events.

Investment Academy Cohort Member | *Strand Global, London* **Oct 2026 – Present**

- Weekly programme led by fund members on the investment process: researching companies and macro themes, building a view, sizing and pitching a position.

LLM Trainer & Evaluator | *Leading Conversational AI Platform, Remote* **May 2026 – Aug 2026**

- Benchmarked AI-generated outputs for factual accuracy, reasoning and safety against strict quality and alignment guidelines within an RLHF pipeline, as part of a distributed team.

LEADERSHIP

Organiser | *First Women's Hackathon London* **Oct 2026**

- Organised London's first women-dedicated STEM hackathon, bringing together 100+ participants from KCL, UCL and Imperial College London; coordinated logistics, sponsors, technical mentors and resources.

Sponsorship Officer | *KCL Women in STEM Society* **Jul 2026 – Present**

- Secure corporate sponsorships for society events, career panels and networking; manage outreach, proposals and partners, working with the wider committee to align sponsorship with event goals.

PROJECTS

- **XRP Ledger Anti-Money-Laundering Detector (2026):** two-stage gradient-boosting model (LightGBM) ranking suspicious payments across 40k transactions and 8 laundering typologies at the Decode & Detect XRPL AI Hackathon (UK Centre for Blockchain Technologies × Ripple): 65.1 AP alone, core of the team's 67.8 AP entry.
- **Claudia, AI Application Assistant (2026):** AI assistant (JavaScript, LLMs) that optimises candidate profiles, tailors materials, tracks applications in a personalised dashboard, identifies missing skills and helps prepare for interviews.
- **Blue-Chip Valuation Screener (2026):** Python tool comparing price and valuation multiples (P/E, EV/EBITDA, P/B, P/FCF) with each company's own history, plus volume spikes, SEC Form 4 insider activity and Piotroski/Altman health scores.
- **Polymarket Whale Tracker (2026):** tracks large traders on Polymarket prediction markets, flagging volume anomalies and asymmetric information flows, and sends alerts.
- **Blockchain Freelancer Escrow (2025):** hackathon smart contract that locks client funds as collateral and releases them only on mutual confirmation.
- **AI-Powered Skincare Web App (2026):** founded, built and took to market a web app that scores skin with a proprietary algorithm, recommends tailored products, tracks progress and flags concerning ingredients, with its own mascot and reward system.
- **Fitness & Health Mobile App (2025):** designed and developed a health and fitness tracking app (UI/UX, data architecture, features).
- **International Student Community Channel:** founded and manage a student community channel reaching 500,000+ users worldwide.

HONOURS & AWARDS

- **King's Enterprise Award (2026):** KCL's flagship programme for student-led ventures. **Finalist (2025):** Ayn Rand Institute's Atlas Shrugged International Essay Contest.
